

SURGIGUARD

Fast-acting pre-operative skin preparation

HISEPT SURGIGUARD is an antiseptic solution that contains chlorhexidine digluconate and isopropyl alcohol which are very effective antimicrobial agents against clinically important microorganisms. This product is a safe and effective antiseptic with fast action, persistent and broad spectrum antimicrobial activity that significantly reduce the incidence of wound contamination by skin flora. The product contains a non-irritating antimicrobial agent that prevents dermatitis after surgical body preparation.

Characteristics

- Contains chlorhexidine digluconate and isopropyl alcohol
- Broad-spectrum antimicrobial activity
- Fast acting with persistent activity
- A good alternative of iodine compounds (betadine)
- Without any toxic and harmful effects

THIS IS A HISEPT PRODUCT, WITH
**HIGH-LEVEL
SAFETY &
PROTECTION**

Ingredients

100 g HISEPT SURGIGUARD contains:

- 2 g chlorhexidine digluconate
- 65 g isopropyl alcohol

Auxiliary ingredients:

- pH-Adjusting agent
- Softener
- Dye
- Deionized water

Microbiological Effectiveness

Meets European Standards

Bactericidal Activity

According to EN 1276 Escherichia. coli/ ATCC 10536
(contact time: 30 seconds) Staphylococcus. aureus/ ATCC 6538

According to EN 12791 Microbial flora
(contact time: 60 seconds)

Mycobactericidal Activity

According to EN 14348 Mycobacterium. avium/ATCC 15769
(contact time: 3 minutes) Mycobacterium. terrae/ATCC 15755

Virucidal Activity

According to EN 14476 Murine norovirus, strain S99 Berlin
(contact time: 3 minutes)

Yeasticidal Activity

According to EN 13624 Candida. albicans/ ATCC 10231
(contact time: 3 minutes)
